PR 126 Long Grain Parboiled Rice

Regional Punjab long-grain PR variety, subject to seasonal procurement and agreed commercial specifications.

Indicative grain length: 6.4–7.0 mm · Moisture target: 12–14% · Packing: 25 kg / 50 kg

Bulk Parboiled / Sella Rice

Bulk programme for commercial buyers. Availability, grade and quality parameters are confirmed against the enquiry and season.

Packing formats: 25 kg / 50 kg · PP or jute bags subject to agreement

1121 Basmati — Contract Milling

Selected Basmati requirements can be discussed through seasonal contract milling and buyer-specific specifications.

Availability, processing, grade and packaging confirmed per contract

Regional Basmati — Contract Milling

Selected regional Basmati programmes considered according to procurement availability and buyer requirements.

Availability and specifications confirmed per contract

Custom Buyer-Spec Rice Milling

Discuss variety, estimated volume, broken percentage, moisture, polishing and packaging requirements with the team.

Custom requirements are subject to technical review and written agreement

Processing and supply

The published business profile describes soaking, steaming, drying, cleaning, sorting and polishing workflows. Final parameters and acceptance criteria should be agreed in writing before an order is confirmed.

Bulk packaging

Standard bulk formats are 25 kg and 50 kg PP or jute bags, subject to availability and agreement. Customized or private-label packaging can be discussed for suitable commercial volumes.

How to request a quotation

Please share the product or variety, estimated quantity, desired packing, destination, required specifications and target delivery window. Sample requests and supply availability are reviewed individually; no sample, price, grade or delivery date is guaranteed until confirmed by the business.
